Application Form

The goal of Big Sky Outdoor Rebate Program is to inspire Big Sky residents to use practices that will increase water efficiency in their landscape/irrigation systems. Our rebate programs operate under a broader effort, Big Sky Water Conservation Program to encourage our community to conserve water on a daily basis and promote a more sustainable community and watershed. Each drop of water saved is one that remains in the river.

The following products are available for cash rebates: Smart Controllers, Rain Sensors, and Sprinkler Heads and Nozzles. All Smart Controllers and Rain Sensors must be purchased from a **WaterSenseSM** brand, and sprinkler heads and nozzles must have a check value. For a list of qualifying products, visit our website. Rebate amounts vary by rebate type; please see rebate rate chart on the reverse side of this form for more information. All products must be installed after July 1, 2016 to qualify for a rebate.
